

Annual Sustainability Report 2024

Llana Beach Hotel

Melia Llana Beach Resort & Spa

TUI Blue Cabo Verde

ENVIRONMENT

Prepared by: Anilton Moreira – Maintenance Manager

- POTABLE WATER

2024	Consumption m3 Guest/Night	Comparison data 2024- 2023 m3 Guest/Night
January	0.53	+36.07%
February	0.55	+17.53%
March	0.52	+23.77%
April	0.92	+41.88%
May	0.70	-1.55%
June	0.69	+6.71%
July	0.96	+27.67%
August	0.72	-8.25%
September	0.79	+31.47%
October	0.76	+32.22%
November	0.54	+24.52%
December	0.59	+24.37%
Total	0.66	+21.84%

Meliá is committed to mitigating the impact of its activity and to making responsible and efficient use of natural resources.

- IRRIGATION WATER

2024	Consumption m3 Guest/Night	Comparison data 2024- 2023 m3 Guest/Night
January	0.15	+11.68%
February	0.17	+33.51%
March	0.16	+0.62%
April	0.29	+7.86%
May	0.17	-36.71%
June	0.21	-8.84%
July	0.26	+7.37%
August	0.21	-42.34%
September	0.17	-7.17%
October	0.12	-22.35%
November	0.16	-4.45%
December	0.15	-6.51%
Total	0.18	-7.34%

Meliá is committed to mitigating the impact of its activity and making responsible and efficient use of natural resources.

- ENERGY

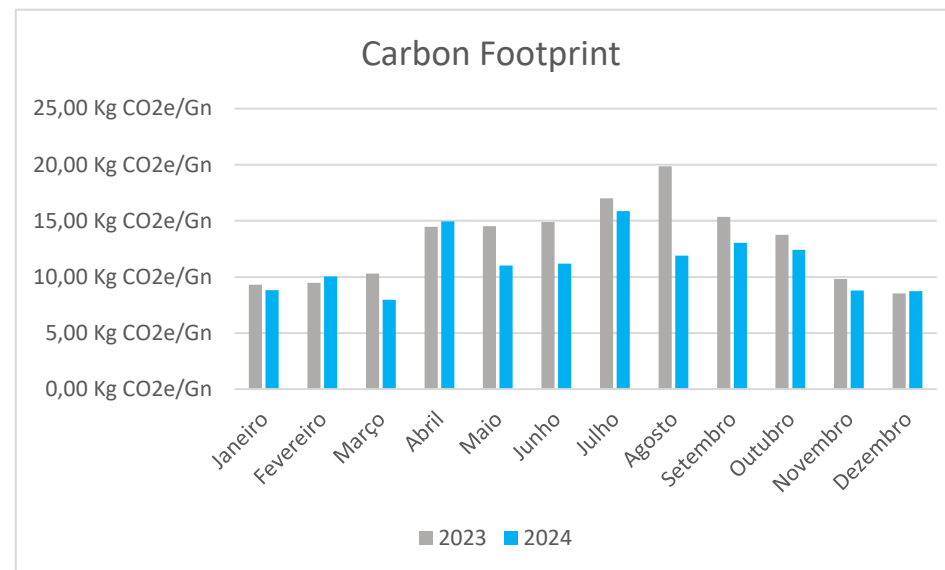

2024	Guest kWh Consumption/Night	Comparison with 2023 % kWh Guest/Night
January	15.40	-6.02%
February	17.87	+2.51%
March	14.37	-22.81%
April	26.50	+0.08%
May	19.77	-21.14%
June	20.59	-22.82%
July	29.41	-1.94%
August	20.75	-38.42%
September	22.79	-15.26%
October	21.47	-9.36%
November	15.47	-9.01%
December	15.35	+0.44%
Total	19.11	-11.80%

Meliá is committed to mitigating the impact of its activity and making responsible and efficient use of natural resources.

- CARBON FOOTPRINT

2024	Kg CO2e Guest/Night	Comparison with 2023 % Kg CO2e Guest/Night
January	8.83	-5.10%
February	10.05	+6.05%
March	7.95	-22.77%
April	14.96	+3.33%
May	11.02	-24.15%
June	11.20	-24.76%
July	15.87	-6.66%
August	11.90	-40.08%
September	13.03	-15.09%
October	12.42	-9.74%
November	8.80	-10.21%
December	8.73	+2.37%
Total	10.77	-12.34%

*The carbon footprint includes water and energy.

Meliá is committed to mitigating the impact of its activity and making responsible and efficient use of natural resources.

- WASTE

- Overall estimate : 2000 tons
- Used cooking oil : Collected by APP
- Food Waste: TRG agreement with animal producers

Meliá is committed to moving towards a hotel management model based on circularity that allows for the reduction, recycling, reuse and/or progressive elimination of waste generated by its activity.

Achievements:

- Reduction in energy consumption of 11.80%
- Reduction in irrigation water consumption of 7.34%
- Carbon footprint reduction of 12.34%
- Turtle hatchery remodeling

Objectives

- Reduction of drinking water consumption by 2%
- Reduction of energy consumption by 2%
- A 2% reduction in greenhouse gas emissions from energy, water, and waste.
- 2% reduction in the purchase of red meat.
- Turtle hatchery remodeling
- Obtain Travelife Certification
- Creating a battery recycling point in an app.

Measures to be taken

Water:

- Maintain the agreement with AquaService for leak detection consulting.
- Allocate budget for immediate leak repairs.
- Review of flow rates in taps, bedrooms and public areas by the maintenance department.
- To ensure compliance with Good Environmental Practices relating to water.

Energy:

- Visit and review of the electrical system by TRG's corporate team.
- To ensure compliance with Good Environmental Practices related to energy.
- Check that all lights are under a shut-off control system (photocell, timer, motion detector or signaling device).

Waste:

- To facilitate the creation of an EcoPoint in an app, studying how to make available the materials or equipment that are requested of us.
- Donation of a container to the APP Green Point for the disposal of batteries.

Good Environmental Practices:

- Include communication of Good Environmental Practices to employees in the 2025 Sustainability Program.
- Include communication of Good Environmental Practices for guests in the 2025 Sustainability Program.
- Check that all lights are under a shut-off control system (photocell, timer, motion detector or signaling device).

Biodiversity:

- Quarterly Beach Cleaning
- Replace any ashtrays that may be damaged on the beach.
- Turtle hatchery remodeling
